Reception Class Home Learning - Maths Games

Dear Parents/Carers,

In Reception Class, we are committed to ensuring all our pupils develop a secure and fluent understanding of basic maths knowledge and skills. We know that parents are always very keen to support their children at home and for these reasons, we have developed a series of fun 'Maths Games' for you and your child to play.

Each week we will send home a new game and any resources you might need in order to play it.

Games will be sent home every Thursday.

Please return them the following **Monday**.

This term the games will focus on:

Understanding Numbers – accurate counting, recognising and reading numerals to 10, the value of digits, simple addition by counting all the objects and 1 more.

As you can imagine, it has been a very time consuming task to prepare and resource all the sets of games.

In order for us to be able to send out a new pack to you each week, can we please ask you to:

- Return the game pack to school on time – every **Monday**.
- Check all the pieces are back in the plastic wallets.
- Ensure that game boards and cards are not bent or damaged.

We have tried our very best to check that the games work well, but please do let us know if you have any problems.

We truly hope you and your child will have fun with these games, as well as helping them to learn.

Do let us know if you have any feedback.

Thank you for your time and support.

With our very best wishes

The Reception Team
